

Telpro Incorporated

Capability Statement

Company

Telpro serves the telecommunication and network equipment marketplace from our facilities in Ohio and Arizona. Telpro's key industry and OEM relationships, coupled with more than 22 years market experience, enables Telpro to sell and repair state of the art and legacy telecom equipment.

Mission Statement

Telpro will continue to distinguish itself as a customer driven and service oriented company providing quality telecom hardware and repair services that enable our business and governmental customers to excel.

We realize our strength and competitive advantage lie within our people. We take pride in our quality, reliability and timeliness in meeting our customer's needs.
